and its subsidiaries  
Review report and consolidated and separate financial  
information  
For the three-month and six-month periods ended  
30 June 2025

## **Independent Auditor's Report on Review of Interim Financial Information**

To the Shareholders of Laguna Resorts & Hotels Public Company Limited

I have reviewed the accompanying consolidated financial information of Laguna Resorts & Hotels Public Company Limited and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2025, the related consolidated statements of income and comprehensive income for the three-month and six-month periods then ended, and the related consolidated statements of changes in shareholders' equity and cash flows for the six-month period then ended, as well as the condensed notes to the interim consolidated financial statements. I have also reviewed the separate financial information of Laguna Resorts & Hotels Public Company Limited for the same periods (collectively "the interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*. My responsibility is to express a conclusion on this interim financial information based on my review.

### **Scope of Review**

I conducted my review in accordance with Thai Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

### **Conclusion**

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*.

### **Emphasis of Matter**

I draw attention to the condensed Note 1.2 to the interim financial statements which described that the Company's proportion of minority shareholding (Free Float) was below the threshold prescribed by the Stock Exchange of Thailand. As a result, the Stock Exchange of Thailand imposed the SP (Trading Suspension) sign on the Company's listed securities to temporarily suspend the trading. My conclusion is not modified in respect of this matter.

**1.2 Suspension of Securities Trading (SP Sign) by the Stock Exchange of Thailand**

On 5 June 2024, the Stock Exchange of Thailand (“SET”) marked the Company’s securities with the “CF” (Caution – Free Float) sign, as the proportion of minority shareholders (Free Float) was below the threshold prescribed by SET. According to the regulations, a listed company is required to have at least 150 minority shareholders, collectively holding not less than 15% of the total paid-up capital of the Company. The Company has continuously reported information and updates regarding its Free Float status through the SET’s website.

### 1.3 Basis for the preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 34 *Interim Financial Reporting*, with the Company presenting condensed interim financial statements. The Company has presented the statements of financial position, income, comprehensive income, changes in shareholders' equity, and cash flows in the same format as that used for the annual financial statements and has presented notes to the interim financial statements on a condensed basis.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language financial statements.

### 1.4 Basis of consolidation

The interim consolidated financial statements includes the financial statements of Laguna Resorts & Hotels Public Company Limited ("the Company") and its subsidiary companies ("the subsidiaries") (collectively as "the Group") and has been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2024, with no change in shareholding structure of subsidiaries during the current period, except for the acquisition of Tropical Resorts Limited, resulting in an addition of three subsidiaries as detailed below. Further information is disclosed in Note 7.

## 1.5 Accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2024, except the following transaction.

### **Business combination and goodwill**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at the acquisition date fair value, the amount of any non-controlling interests in the acquiree and the acquisition date fair value of the Group's previously held equity interest in the acquiree, in a business combination achieved in stages.

For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

The Group measures the identifiable assets acquired and the liabilities assumed at acquisition date fair value, and classifies and designates them in accordance with the contractual terms, economic circumstances, and pertinent conditions as at the acquisition date.

Any contingent consideration to be transferred by the Group will be recognised at fair value at the acquisition date. A contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. A contingent consideration classified as an asset or liability is measured at fair value, with changes in fair value recognised in profit or loss.

Goodwill is initially recorded at cost, which equals the excess of cost of the business combination over the fair value of the net assets acquired. If the fair value of the net assets acquired exceeds the cost of the business combination, the excess is immediately recognised as a gain in profit or loss.
